Synopsis

Rumi has been described as the most popular poet in the United States. Rumi's popularity has gone beyond national and ethnic borders. His poetry is still read worldwide today and has been translated into a wide variety of languages including Turkish, Persian, Russian, Asian, English and Spanish languages. Customer Reviews

Very nice, enlightening and entertaining. I give it 4 stars only because the individual poems are more like verses, and 101 of them is a little expensive at the price. Presumably the language-art drives the value higher in the original, though these translations are quite pleasant and readable.

Mind-blown by how these clever and mystical thoughts can open up your mind and make you see things in a different way. I found out about Rumi not a long time ago and his words should not be underestimated - they offer us another dimension of the way mankind should tend to evolve and I, for one, am stunned by the poetry in this collection.

As being a huge fan of self-development I found the book was very inspiring with loads of powerful and wise quotes about life. Everyone who likes philosophy and great ideas how to improve life and who wants to be inspired should get this book.

This book is very beautiful and inspiring. His poetry is simple and captures the inner and invisible world of the human being on this spiritual journey we call Life.

I don't know how I got to my age without reading Rumi. This book is great! If you haven't read Rumi, drop everything and order this, you will not regret it.

This is the collection for lovers of Rumi and at a great price! Thought provoking ...stunning images with words . A must read for fans and poetry lovers.

Outstanding, revelatory, and soothing. Rumi is a rock-solid classic. Put aside your self-help books, and bask in the Rumi for awhile.

Some of the quotes seemed pretty flourey to me, but there were several profound quotations that I bet I'll use for years to come.
