Customer Reviews

I bought this book for my 5 year old son. My husband and I are bilingual along with our extended families so I bought this book so that he can learn a little more Spanish. I like this book because the text is big and the pages are colorful so it really catches his attention. My son also loves it and loves speaking Spanish to us. If you are looking for a great English/ Spanish book, give this a try! Its worth it!

It is exactly like the picture

This book appears to look like the same publisher as a high quality brand called Priddy books but it is a look alike and there are many translation errors. I kept the book but don't recommend it.
