Customer Reviews

I'm slowly trying to learn Spanish because I will be teaching in a school with a high population of Hispanic people and wanted to start somewhere. These flash cards, along with others I bought at the same time, are perfect for learning basic things that will also interest my preschool students. Great quality cardstock. I put mine onto split rings for on-the-go learning. Definitely recommend.

I wanted to order my 3 year old some animal flash cards with some animal facts on them....I ordered these since they also have the names in Spanish which is a plus to me because she already knew all the animals but not all the names in Spanish

This product is just as described - glossy flashcards with animals on one side and a brief description on the other side. The animals represented seem to be so arbitrary. Some uncommon animals are featured, but some common animals are omitted. You do get a variety of land, sea and air animals. Unless someone really likes flashcards, there really is nothing special about this product. I will keep it because it is somewhat useful (and not that expensive).

Very happy these are not just for learning the words but they tell you about each animal. I wish the set was bigger. I definitely recommend.

I like the flash cards. Both of my sons enjoy learning about the different animals. And its bilingual thats a major plus :)
